REISSUE APPLICATION DECLARATION
BY INVENTORS

BEST AVAILABLE COPY

As a below named inventor, I hereby declare that:

My residence, post office address and citizenship are as stated below next to my name.

I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is described and claimed in patent number 5,731,898, granted March 24, 1998, and for which a reissue patent is sought on the invention entitled OPTICAL FILTER ARRANGEMENT the specification of which

(Check One) is attached hereto OR
 was filed on March 24, 2000 as United States reissue application Serial No. 09/535,827 and was amended on _____ (if applicable).

I hereby state that I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment(s) referred to above.

I acknowledge the duty to disclose information which is material to the patentability of this application in accordance with Title 37, Code of Federal Regulations, § 1.56.

I hereby claim foreign priority benefits under Title 35, United States Code, § 119(a)-(d) or § 365(b) of any foreign application(s) for patent or inventor's certificate, or § 365(a) of any PCT international application which designated at least one country other than the United States of America, listed below and have also identified below, by checking the box, any foreign application for patent or inventor's certificate, or of any PCT international application having a filing date before that of the application on which priority is claimed.

Prior Foreign Application Number(s)	Country	Date of Filing	Priority Claimed Yes	No
94/2502	South Africa	April 12, 1994	XXXX	
94/9414	South Africa	November 28, 1994	XXXX	

I hereby claim the benefit under Title 35, United States Code, § 120 of any United States application(s), or § 365(c) of any PCT international application designating the United States of America, listed below and, insofar as the subject matter of each of the claims of this application is not disclosed in the prior United States or PCT international application in the manner provided by the first paragraph of Title 35, United States Code, § 112, I acknowledge the duty to disclose information which is material to patentability as defined in Title 37, Code of Federal Regulations, § 1.56 which became available between the filing date of the prior application and the national or PCT international filing date of this application.

U.S. (Reissue) Parent Application Number	PCT Parent Number	Parent Filing Date	Status-Patented, Pending or Abandoned

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

BEST AVAILABLE COPY

- by reason of a defective specification or drawing.
- by reason of the patentee claiming less than he has a right to claim in the patent.
- by reason of other errors.

At least one error upon which reissue is based is described below.

- ✓ In the "BRIEF DESCRIPTION OF THE DRAWINGS," a description for the included Figure 13 was inadvertently omitted.
- ✓ At column 8, line 66, "FIG. 6" was inadvertently referred to instead of "FIG. 7".
- ✓ In claim 1, at column 12, line 6 "thins film" should read "thin film".

This is a broadening-reissue and following is an explanation as to the nature of the broadening. The specification of original U.S. Patent No. 5,731,898 is partly inoperative by reason of the patentee claiming less than he had a right to claim through error without any deceptive intention. I verily believe that one error includes the omission of claims directed to a transparent construction including a reflective pattern thereon that are the same as, or equivalent of, claims 5-24 of this reissue application. I verily believe that another error includes the omission of claims directed to a method of forming a transparent construction including a reflective pattern thereon that are the same as, or equivalent of, claims 25-26.

All errors which are being corrected in the present reissue application up to the time of filing of this declaration arose without any deceptive intention on the part of the applicant.

POWER OF ATTORNEY: As a named inventor, I hereby appoint as my attorneys and/or agents, with full power of substitution and revocation, to prosecute this application and transact all business in the United States Patent and Trademark Office, and in countries other than the United States, and to do all things necessary or appropriate therefor before any competent International Authorities in connection with any international patent application(s) corresponding to the above-identified invention application, all of the registered practitioners identified by following Customer Number:
